Congressman Pence has the following quote in this *Human Events* piece today:

"We agreed that we would oppose any tax increase for Social Security, and that an increase in the income cap on the payroll tax was a tax increase," Rep. Mike Pence (R.-Ind.), the RSC chairman, said the day before the President's comments were reported on the front page of the February 17 Washington Post. Pence said that sentiment against increasing the cap was "overwhelming" among the RSC. "You don't save a system by making it bigger," he said.
