PENCE HAILS TS TECH DECISION TO BUILD ASSEMBLY PLANT IN NEW CASTLE

Washington, Mar 9, 2007 - U.S. Congressman Mike Pence today hailed TS Tech North America's decision to build a new $10 million plant in the New Castle Industrial Park. The plant will employ 300 people and make car seats to supply the new Honda plant in Greensburg.

"Thanks to the leadership of Governor Mitch Daniels, Mayor Tom Nipp and other state and local officials, TS Tech will soon break ground on a $10 million plant in New Castle that will employ at least 300 people," said Pence.

"The people of eastern Indiana should be proud," said Pence. **"The decision of yet another company to locate here speaks to the strong work ethic and high integrity of Hoosiers in the 6th Congressional district. TS Tech's decision is a reflection of its confidence in the hard-working people of Indiana."**

"Our community owes a debt of gratitude to Congressman Mike Pence for securing a $1 million grant that will be used to lengthen the runway at the New Castle-Henry County Municipal Airport," said Bryan Coats, president and CEO of the New Castle-Henry County Economic Development Corporation. **"The runway extension along with the Industrial Park's location were the key factors in TS Tech's decision to locate in New Castle."**
