PENCE RECOMMENDS REAGAN READING LIST FOR CONSTITUENTS

Washington, Oct 31, 2003 - Washington, D.C.— In lieu of CBS' upcoming movie, "The Reagans," which has been largely reported to distort the former President's life, Congressman Mike Pence recommended a book list to his constituents today that will provide an accurate portrayal of President Reagan's record.

"I have been disappointed in the news reports I've read lately regarding CBS' portrayal of President and Nancy Reagan," said Pence. "Having not seen the movie yet myself, I can only hope that it does better justice to this great leader's life than what is being reported in the media.

"In order to make sure my constituents understand what a great leader Reagan was, I recommend the following books that accurately describe President Reagans' character and leadership," said Pence.

Pence's must-read list about President Reagan includes the following:

"Ronald Reagan: An American Life" by Ronald Reagan

"Dutch: A Memoir of Ronald Reagan" by Edmund Morris

"When Character Was King" by Peggy Noonan

"A Different Drummer" by Michael Deaver

"Ronald Reagan: How an Ordinary Man Became an Extraordinary Leader" by Dinesh D'Souza
