Washington, DC – U.S. Congressman Mike Pence made the following statement today regarding American tax dollars being used for bailouts of European countries.

“In town hall meetings in Anderson and Muncie this week, my constituents expressed themselves in a very clear way: they’re tired of the borrowing, the spending, the takeovers and the bailouts.

“Last week I introduced the European Bailout Protection Act and today we held a Greek Forum in Washington, calling on this administration and this Congress to end the bailouts at home and abroad. Hoosiers deserve to know that we’re bailing out Greece and if this administration has its way will provide tens of billions of dollars in loan guarantees to other European countries. Here’s hoping that this Congress and this administration heeds the voice of the American people and begins to focus on restoring our economy and restoring fiscal sanity by rejecting this pathway of borrowing and spending and bailouts.”
