Columbus, IN – U.S. Congressman Mike Pence hailed the announcement by Cummins of 600 new jobs today with Cummins' President and COO Tom Linebarger, Governor Mitch Daniels, Senator Richard Lugar and Mayor Fred Armstrong.

"Since its founding here in Columbus in 1919, Cummins has been a leader in the industry, driving innovation, much like Columbus itself," said Pence. "This company has always believed in this community and this state. Today, I hail their decision to continue to invest in Columbus by opening a new facility here and adding 600 new jobs. Cummins is Columbus, and Columbus is Indiana."
