More Than 60 Businesses and 700 Citizens Attend

Muncie, IN – U.S. Congressman Mike Pence hailed the success of this year's Sixth Congressional District Job Fair and thanked officials from Ball State University and area employers for their partnership.

"With 62 businesses and more than 700 citizens in attendance, this year's job fair was an outstanding success," said Pence. "During a time when so many Hoosiers are hurting, it's important that job seekers have as many opportunities as possible to meet potential employers. I am especially grateful to Ball State University and President Jo Ann M. Gora for continuing to support the families of east central Indiana. I also want to commend all of the businesses that offered opportunities today and all of the job seekers who came out to look for a better future. I pray your courage will be rewarded with opportunity."
