The *Star Press* **wrote** a fitting tribute to the late John Fisher:

OUR VIEW: Muncie owes debt of gratitude to Fisher family

There was never any doubt about the wisdom, foresight and commitment to Muncie of John Fisher, his wife, Janice, and the Fisher family, and news of the donation of the Fisher Building to Ivy Tech Community College merely adds to and reinforces that legacy.

***

The newly named Ivy Tech Fisher Campus, which is expected to attract as many as 1,500 students a day when it becomes fully functional in fall 2010, also is a boon to downtown Muncie development. That kind of foot traffic is bound to attract new businesses and restaurants catering to a student clientele, while at the same time, providing a boost to those already existing.
