mpg plug-in hybrid electric vehicle called the IDEA will be made available to educate Members on energy-related issues..

Tuesday, April 21, 2009:

9:30 AM - Congressman Pence to attend and speak at Bright Automotive event

Briefing will take place in Room 304 of the Cannon House Office Building.

The vehicle will be introduced and displayed at the corner of Independence and 1st Street SE, Washington, DC.

NOTE: Bright Auto is based at small business incubator Flagship Enterprise Center in Anderson, Indiana in the heart of the 6th Congressional District. Congressman Pence helped start Flagship, a partnership between Anderson University, Purdue University and the City of Anderson which opened in May 2005. This public-private partnership headed by Chuck Staley has helped to start over 55 companies and helped create over 1,200 jobs.
